

CARYSIL

German Engineered

Inspired by nature, “CARYSIL” sinks are made from 75-80% mineral quartz – a rock-hard material, using **German Technology**. These exquisite sinks are available in various attractive colors to match your kitchen top. Besides looking elegant, “CARYSIL” sinks are scratch and high-impact resistant for long-lasting beauty. Most importantly, they are non-porous (homogenous), which make them hygienic and safe in contact with food. “CARYSIL” sinks are widely exported to Asia, Europe, and US markets. In Singapore, we have a 25-year proven track record with “CARYSIL” sinks!
